INDEPENDENT AUDITORS' REPORT

Board of Trustees
Cornell College
Mount Vernon, Iowa

We have audited the accompanying financial statements of Cornell College, which comprise the balance sheets as of June 30, 2016 and 2015, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Board of Trustees
Cornell College

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Cornell College as of June 30, 2016 and 2015, and the change in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Operations

Cornell College (the College) is a nationally ranked, highly selective liberal arts college of 1,000 students characterized by life-changing academic immersion in the One Course At A Time curriculum. This intensive focus lays the foundation for a student's entire Cornell education: Transformative intellectual partnerships that bring out the best in our ambitious students. Within our curriculum, students dive in, focus intensely, and learn authentically in every course they take. Unlike the semester system, the College offers an education at the speed of life with no slow intros, far off exams or papers, or gaps between classes. At the heart of a Cornell College education are frequent opportunities for experiential learning. The One Course curriculum frees students to explore new ways to learn—faculty can take entire classes on field trips for a day or an entire block—in whatever venues best suit the subject of the class. The College's distinctive calendar immerses students in full-time internships, research, or other hands-on opportunities, producing substantial real-world experiences.

The College attracts an engaged student body from across the nation and around the world. They become quickly involved in campus life, living in a common rhythm due to their focused academic calendar schedules that brings them closer together as a community on a socially, culturally, and politically engaged campus. The College students come from 47 states, two U.S. territories, and 17 foreign countries, and a typical first-year class includes more than 20% domestic students of color and 5% international students. The campus is diverse on many levels and expands its global environment by drawing international speakers, artists, and authors to campus.

The College's setting on a wooded hilltop in Mount Vernon, Iowa offers a classic, beautiful, and safe collegiate setting. A brick pedestrian mall along the ridge of the hilltop links modern facilities with numerous buildings on the National Register of Historic Places. Mount Vernon—noted as one of the 10 Coolest Small Towns in America—provides students an idyllic small college town atmosphere but also connects them to the Eastern Iowa Creative Corridor. 93% of the College graduates complete their degrees in four years or less, and 55% of the College graduates complete an advanced degree. The College's law school acceptance rate is 85%, compared to the national average of 80%. Our medical acceptance rate is 75%, compared to the national average of 40%. The College has since 1996 been known as one of the 40 "Colleges that Change Lives," based on the Loren Pope book now in its fourth edition. Its distinctive curriculum within the liberal arts provides a solid path to professional achievement and personal fulfillment.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Presentation

Net assets, revenues, expenses, gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the College and changes therein are classified and reported as follows:

Unrestricted Net Assets – Net assets that are not subject to donor-imposed stipulations.

Temporarily Restricted Net Assets – Net assets subject to donor-imposed stipulations that may or will be met either by actions of the College and/or the passage of time and accumulated earnings for restricted endowment fund assets. Contributions received with donor-imposed restrictions that are met in the same year as received are reported as revenues of the temporarily restricted net asset class, and a reclassification to unrestricted net assets is made to reflect the expiration of such restrictions.

Permanently Restricted Net Assets – Net assets subject to donor-imposed stipulations that they be retained permanently by the College. Generally, the donors of these assets permit the College to use all of, or part of, the income earned on related investments for general or specific purposes.

Revenues are reported as increases in unrestricted net assets, unless use of the related assets is limited by donor-imposed restrictions. Expenses are reported as decreases in unrestricted net assets. Gains and losses on investments and other assets or liabilities, other than endowment and similar funds, are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulation. Expirations of temporary restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as reclassifications between the applicable classes of net assets; net assets released from restrictions.

Contributions, including unconditional promises to give, are recognized as revenues in the period received. Conditional promises to give are not recognized until they become unconditional, that is, when the conditions on which they depend are substantially met. Contributions of property, plant, and equipment without donor restrictions concerning the use of such long-lived assets are reported as revenue of the unrestricted net asset class. Contributions of cash or other assets to be used to acquire property, plant, and equipment are reported as revenue of the temporarily restricted net asset class; the restrictions are considered to be released at the time of acquisition of such long-lived assets. Contributions of assets other than cash are recorded at their estimated fair value. Contributions to be received after one year are discounted at an appropriate discount rate commensurate with the risks involved. Amortization of discounts is recorded as additional contribution revenue in accordance with donor-imposed restrictions, if any, on the contributions. An allowance for uncollectible contributions receivable is provided based upon management's judgment including such factors as prior collection history, type of contribution, and nature of fundraising activity.

JUNE 30, 2016 AND 2015

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Presentation (Continued)

Income, realized gains and losses, and unrealized gains and losses on investments of endowment and similar funds are reported as follows:

- As increases in permanently restricted net assets if the terms of the gift or the College's interpretation of relevant state law require that they be added to the principal of a permanent endowment fund;
- As increases in temporarily restricted net assets in all other cases unless the individual endowment is underwater; and
- As increases in unrestricted net assets if the individual endowment is underwater.

The board of trustees designates a portion of the College's cumulative unrestricted investment return for support of current operations; the remainder is retained to support operations of future years and to offset potential market declines.

Cash and Cash Equivalents

The College considers all highly liquid debt instruments purchased with a maturity date of less than three months to be cash equivalents except for money market funds held for long-term investment and deposits with bond trustees.

Cash in excess of daily requirements is invested in interest bearing accounts and money market funds of qualified financial institutions in amounts that frequently exceed insured limits. The College has not experienced any losses in these investments.

Student Accounts Receivable and Student Loans Receivable

Student accounts receivable are carried at the unpaid balance of the original amount billed to students and student loans receivable are carried at the amount of unpaid principal. Both receivables are less an estimate made for doubtful accounts based on a review of all outstanding amounts. Management determines the allowance for doubtful accounts by identifying troubled accounts and by using historical experience. Student accounts and loans receivable are written off when deemed uncollectible and student loans receivable may be assigned to the U.S. Department of Education. Recoveries of student accounts and loans receivable previously written off are recorded when received. The provision for bad debts charged to expense, net of recoveries, was a net expense of \$59,451 and \$73,999 for the years ended June 30, 2016 and 2015, respectively.

Interest is charged on student accounts receivable that are past due and is recognized as it is charged. A student account receivable is considered to be past due if any portion of the receivable balance is outstanding at the beginning of the term to which the charges relate. Once a student is no longer enrolled, accrual of interest is suspended.

**CORNELL COLLEGE
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016 AND 2015**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Student Accounts Receivable and Student Loans Receivable (Continued)

Interest is charged and recognized on student loans receivable after a student is no longer enrolled in an institution of higher education and after a grace period. Interest is recognized as charged. Late charges are charged if payments are not paid by the payment due date and are recognized as they are received. Students may be granted a deferment, forbearance, or cancellation of their student loan receivable based on eligibility requirements defined by the U.S. Department of Education or in the case of loan funds of the College, based on the respective loan program.

Contributions Receivable

Contributions receivable include pledges that are recorded at their present value using discount rates ranging from approximately 2% to 6% depending on the year of pledge inception. An allowance for uncollectible contributions receivable is provided based upon management's judgment including such factors as prior collection history, type of contribution, and nature of fundraising activity. For the years ended June 30, 2016 and 2015, the College had an allowance of \$200,000.

Inventories

Inventories are valued at the lower of cost (first-in, first-out method) or market.

Investments

Investments in equity securities with readily determinable fair values and all investments in debt securities are reported at fair value with unrealized gains and losses included in the statement of activities. Donated investments are recorded at fair value on the date received.

Alternative investments, such as private equity, absolute return hedge funds, real estate investment trusts, and natural resource funds consist primarily of investments that are not readily marketable. Investments in these categories are valued utilizing the most current information provided by the general partner or manager of the fund. Because these alternative investments are not readily marketable, their estimated fair value is subject to uncertainty and therefore may differ from the value that would have been used had a ready market for such investments existed. Such differences could be material.

Farms and city real estate are carried at cost or, if received as a donation, at the fair market value at the date received less applicable accumulated depreciation.

Realized gains are calculated using the average cost method.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016 AND 2015**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property, Plant, and Equipment

Land and campus improvements, buildings, rental properties, equipment, and library books over \$5,000 are stated at cost at date of acquisition or fair value at date of gift, less accumulated depreciation computed on a straight-line basis over the following estimated useful lives. Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets.

Campus Land Improvements	20 Years
Buildings and Rental Properties	50 Years
Equipment	5 -10 Years
Library Books	10 Years

Pension Plan

The College has a pension plan covering substantially all of its employees. The total pension expense for the years ended June 30, 2016 and 2015 was \$973,349 and \$956,710, respectively. The plan is of the defined-contribution type whereby the College contributes a specified percentage of the employee's salary and the employee's benefit is whatever amount the accumulated contributions will buy.

Self-Insurance

The College is self-insured with respect to its health insurance coverage. The College maintains reinsurance that carries a specific stop-loss of \$75,000 per participant covered for the period January 1, 2016 to December 31, 2016 and an aggregate stop-loss of 125% of total expected claims. Expected claims are estimated to be approximately \$1,575,923. For the years ended June 30, 2016 and 2015, the amount of health insurance expense, including administrative costs, and reinsurance costs, net of stop loss recoveries received or receivable, was \$1,570,620 and \$1,620,989, respectively.

Severance Plan

The College previously provided certain retirement, health care, and life insurance benefits for all employees who met eligibility requirements. The College terminated the plan during 2016.

Asset Retirement Obligations

The College recognizes the fair value of a liability for legal obligations associated with asset retirements in the period in which it is incurred, if a reasonable estimate of the fair value of the obligation can be made. When the liability is initially recorded, the cost of the retirement obligation is capitalized by increasing the carrying value of the related asset. Over time, the liability is accreted to its present value each year and the capitalized cost associated with the retirement obligation is depreciated over the useful life of the related asset. Upon settlement of the obligation, any difference between the cost to settle the asset retirement obligation and the liability recorded is recognized as a gain or loss in the statement of activities. The College reviews its estimates annually and adjusts the recorded liability as needed (see Note 11).

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Due to U.S. Government

Amounts due to the U.S. government include advances under the Perkins Loan Program and the program's cumulative net income as these funds are ultimately refundable to the U.S. government.

Student Tuition Paid in Advance and Contract Advances

The College records cash received for future services as deferred revenue. This revenue is recognized when services are provided. Deferred revenue consists primarily of unearned tuition and advances received on long-term contracts.

Revenue Recognition

Tuition, fees, and room and board revenue is recognized in the year the services are performed. Net tuition and fees are computed after deducting financial aid awarded to students. In order to assist students in meeting tuition and other costs of attendance, the College administers a variety of federal, state, institutional, and private programs. Financial aid packages to students may include direct grants, loans, and employment during the academic year. Investment income is recognized as it is earned.

Income Tax Status

The College is recognized as exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. The College may be subject to federal and state income taxes on any net income from unrelated business activities. The College files a Form 990 (Return of Organization Exempt from Income Tax) annually and unrelated business income (UBI) is reported on Form 990-T, as appropriate. Management has evaluated their material tax positions, which include such matters as the tax-exempt status and various positions relative to potential sources of UBI. As of June 30, 2016 and 2015, there were no uncertain tax benefits identified and recorded as a liability.

Advertising

The College follows the policy of charging advertising costs to expense as incurred. Total advertising expense is not material to the College's financial statements.

Functional Expenses

The College reports expenditures in categories reflecting core operational objectives for higher education as defined by Integrated Postsecondary Education Data System (IPEDS). During the year expenses are directly coded to program (instruction, academic support and research, student services, and auxiliary enterprises) or support services (institutional support and institutional advancement) whenever possible. Expenses which are not directly identifiable by program or support service are allocated based on the best estimates of management.

The College incurred fundraising costs of approximately \$1,518,000 and \$1,512,000 for the years ended June 30, 2016 and 2015, respectively. These expenses are included with institutional advancement on the statements of activities.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Measure of Operations

In its statements of activities, the College includes in its definition of operations all revenues and expenses that are an integral part of its programs and supporting activities. Non-operating activity consists primarily of investment income greater (less) than spending rate, change in value of split interest agreements, loss on disposal of property, plant, and equipment, amendments and settlements to the accrued severance plan liability, contributions restricted for capital campaign, and permanently restricted contributions.

Subsequent Events

In preparing these financial statements, the College has evaluated events and transactions for potential recognition or disclosure through October 25, 2016, the date the financial statements were available to be issued.

Reclassifications

Certain amounts in 2015 have been reclassified for comparative purposes to conform to the presentation in 2016. The reclassifications have no effect on the previously reported change in net assets or net assets balance.

NOTE 3 STUDENT LOANS RECEIVABLE (CONTINUED)

The College determined their allowance for doubtful accounts on these student loans by looking at historical default rates and analyzing the aging of the past due loans. During the years ended June 30, 2016 and 2015, the College has not significantly changed its methodology for the allowance for doubtful accounts on student loans.

The aging of the student loan portfolio by classes of loans as of June 30 is presented as follows:

Classes Of Loans	2016						Total

Allowance as a Percentage of Loans Collectively Evaluated for Impairment	6.86%	4.35%	5.81%

For each class of financing receivable, the following presents the recorded investment by credit quality indicator as of June 30:

	2016		
	Federal Perkins Loans	Institutional Loans	Total
Performing	\$ 928,761	\$ 618,388	\$ 1,547,149
Nonperforming	196,707	257,337	454,044
Total	\$ 1,125,468	\$ 875,725	\$ 2,001,193

	2015		
	Federal Perkins Loans	Institutional Loans	Total
Performing	\$ 1,102,473	\$ 713,458	\$ 1,815,931
Nonperforming	189,869	213,819	403,688
Total	\$ 1,292,342	\$ 927,277	\$ 2,219,619

Performing loans are those which are less than 240 days past due. Nonperforming loans are those which are greater than or equal to 240 days past due.

For student loans, the credit quality indicator is performance determined by delinquency status and, for Federal Perkins Loans, origination and servicing of the loan. Delinquency status is updated monthly by the College's loan servicer. Federal Perkins Loans that are originated and serviced properly under Department of Education regulations can be assigned to the Department of Education when deemed no longer collectible. The College is not aware of any material amount of loans not properly originated or serviced under Department of Education regulations.

* Trusts held by others are assets neither in the possession of nor under control of the College, but held and administered by outside fiscal agents, with the College deriving income from such funds. The value of such assets is supported by annual trust statements and consists of publicly traded stocks and bonds.

** The College has the ability to liquidate these investments periodically in accordance with the provisions of the respective investment fund agreements. Under terms of certain limited partnership agreements, the College is obligated periodically to advance additional funding for private equity and real estate investments. As of June 30, 2016, the College had commitments of approximately \$840,000 for which capital calls had not been exercised. Such commitments generally have fixed expiration dates or other termination clauses. The College anticipates that it will maintain sufficient liquidity in its investment portfolio to cover such calls.

*** Assets held under charitable remainder trusts primarily consist of equity securities and bonds.

NOTE 4 INVESTMENTS (CONTINUED)

The investments of the College are exposed to various risks such as interest rate, market, and credit. Due to the level of risk associated with such investments and the level of uncertainty related to the changes in the value of such investments, it is at least reasonably possible that changes in risks in the near-term would materially affect investment balances and the amounts reported in the financial statements.

Investment return consists of the following for the years ended June 30:

	2016	2015
Net Realized Gains on Investments	\$ 640,621	\$ 5,311,336
Net Unrealized (Losses) Gains on Investments	(2,796,400)	(3,436,927)

NOTE 6 ACCRUED SEVERANCE PLAN LIABILITY

The College operated an unfunded severance arrangement that covered full-time faculty and exempt status salaried administrative personnel who began service prior to April 14, 1991. To be eligible, the employee had to complete at least 15 years of service and have accumulated at least 75 "points" (a combination of age and years of service). The arrangement was modified in 2012, as a part of a phase-out of the plan, ultimately, to provide a benefit equal to 85% of the participant's final year's compensation in a lump-sum payment for those who attained a minimum age of 60 prior to September 1, 2012. The arrangement also added health care benefits, which will be provided for the lesser of five years or Medicare eligibility and life insurance, which will be provided for up to five years.

NOTE 6 ACCRUED SEVERANCE PLAN LIABILITY (CONTINUED)

In May 2013, an attorney, on behalf of a group of faculty and staff, requested an "Advisory Opinion" from the US Department of Labor, Employee Benefits Security Administration, Office of Regulations and Interpretations regarding the August 13, 2012 amendment made to the Plan.

The College and the group of faculty and staff reached agreement on a settlement in April 2016 and their attorney withdrew his request for an "Advisory Opinion" from The Department of Labor. As a result of the settlement, the College realized a gain of approximately \$1.25 million in fiscal 2016 which is reported in the non-operating section of the statement of activities.

NOTE 11 ASSET RETIREMENT OBLIGATION

Under current accounting standards guidance, the College must accrue for costs related to legal obligations to perform certain activities in connection with the retirement, disposal, or abandonment of assets. The obligation to perform the asset retirement activity is not conditional even though the timing or method may be conditional. The fair value of a liability for a legal obligation associated with an asset retirement is required to be recorded in the period in which the obligation is incurred. When the liability is initially recorded, the cost of the asset retirement is capitalized.

Substantially all of the College's conditional asset retirement obligation relates to the estimated cost to remove certain materials from campus facilities. The future value of the asset retirement obligation as of June 30, 2016 is estimated to be approximately \$1.04 million. The liability was estimated using an inflation rate of 4%. Because accounting standards required retrospective application to the inception of the liability, the initial asset retirement obligation was calculated using a discount rate of 5%.

Changes in the accrual for asset retirement obligation during the years ended June 30 are as follows:

	2016	2015
Balance - Beginning	\$ 486,260	\$ 533,943
Adjustment of Asset Retirement Liability	(48,995)	73,525

NOTE 12 ENDOWMENT FUND AND NET ASSET CLASSIFICATIONS

The College's Endowment Fund consists of various donor-restricted endowment funds and funds designated as quasi-endowment by the board of trustees. Net assets associated with endowment funds, including funds designated to function as endowment funds, are classified and reported based on the existence or absence of donor-imposed restrictions.

The College has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) adopted by the 2008 Iowa legislature as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the College classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund, (d) the original net present value of permanently restricted annuities, and (e) subsequent changes in amounts due under permanently restricted annuities. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the College in a manner consistent with the standard of prudence prescribed by the state of Iowa in its enacted version of UPMIFA. In accordance with UPMIFA, the College considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the Endowment Fund; (2) the purposes of the College and the donor-restricted Endowment Fund; (3) general economic conditions; (4) the possible effect of inflation and deflation; (5) the expected total return from income and the appreciation of investments; (6) other resources of the College; and (7) the investment policies of the College.

The College has adopted investment and spending policies for its Endowment Fund. The objective of these policies is to provide the College a predictable funding stream for its programs while achieving an investment return greater than the combination of the current spending formula and the current rate of inflation in order to protect the purchasing power of the Endowment Fund. The College, through its investment policy, has established a target (inflation-adjusted) annualized rate of return over the long term of at least 7.5%; the total return during any single measurement period may deviate from the long-term return objective. To satisfy its long-term rate-of-return objective, the College expects to maintain appropriate diversification among equity, fixed income, and alternative investment allocations. The purpose is to moderate the overall investment risk of the Endowment Fund.

The board of trustees of the College may appropriate for expenditure or accumulate so much of the Endowment Fund as the College determines is prudent for the uses, benefits, purposes, and duration for which the Endowment Fund is established. The amount appropriated, per the spending policy, is a board approved percentage applied to the average fair value of the endowment fund assets during the twelve quarters ending December 31 of the prior calendar year. The board approved spending percentage was 5% for the fiscal years ended June 30, 2016 and 2015.

NOTE 12 ENDOWMENT FUND AND NET ASSET CLASSIFICATIONS (CONTINUED)

From time to time, the fair value of endowment funds associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires the College to retain as a fund of perpetual duration, underwater endowments. As of June 30, 2016 and 2015, donor-restricted endowment funds were underwater by \$7,277,569 and \$4,217,460, respectively. This amount is reported in unrestricted net assets. These deficiencies, which the College believes are temporary, resulted from unfavorable market fluctuations. The board determined that continued appropriation during fiscal years ended June 30, 2016 and 2015 for certain programs was prudent.

NOTE 13 FAIR VALUE MEASUREMENTS

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification defines fair value, establishes a framework for measuring fair value and requires disclosure of fair value measurements. The fair value hierarchy set forth in the Topic is as follows:

Level 1 – Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2 – Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data. Investments measured using the practical expedient, that do not have any significant redemption restrictions, lockup periods, gates or other characteristics that would cause report and liquidation date net asset value (NAV) to be significantly different, if redemption were requested at the report date.

Level 3 – Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability. The College reports the fair value of certain Level 3 investments using the practical expedient. The practical expedient allows for the use of net asset value (NAV), either as reported by the investee fund or as adjusted by the College based on various factors, to be used to determine fair value, under certain conditions. The fair value of the investment is based on a combination of audited financial statements of the investees and monthly or quarterly statements received from the investees. These investments would have significant redemption and other restrictions that would limit the Funds' ability to redeem out of the fund at report date NAV.

NOTE 13 FAIR VALUE MEASUREMENTS (CONTINUED)

A description of the valuation methodologies used for assets and liabilities measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below.

Investments

Where quoted prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities would include highly liquid government bonds and exchange traded equities. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics, or discounted cash flow. Level 2 securities would include U.S. agency securities, mortgage-backed agency securities, obligations of states and political subdivisions and certain corporate, asset backed, and other securities. In certain cases where there is limited activity or less transparency around inputs to the valuation including alternative investments, securities are classified within Level 3 of the valuation hierarchy. Level 3 securities include investments in limited partnerships, life insurance policies, real estate, land and mineral rights. Investments in limited partnerships are fund-of-funds that take custody of the assets and use partnership accounting to determine the unit value of each member's interest in the partnership. Annual audits are performed each year on the partnerships. The College obtains the fair value from the fund managers. The fund managers use various models, comparisons, and assumptions to estimate fair value. Consideration is given to the type of investment, risks, marketability, restrictions on dispositions and quotations from other market participants. Life insurance policies are valued at cash surrender values determined by the life insurance companies. The value of real estate, land, and mineral rights is determined through third-party appraisals. The value of charitable lead/remainder unitrusts is derived from the underlying investments of the unitrusts. The value of those investments is determined in the same manner as investments described above. Future expected cash flows are discounted using a risk adjusted discount rate.

There have been no changes in valuation techniques used for any assets measured at fair value during the years ended June 30, 2016 and 2015.

NOTE 13 FAIR VALUE MEASUREMENTS (CONTINUED)

- (A) The fund invests in a select group of investment funds in the natural resource sector, with an emphasis on depleting resources. These funds are valued on a regular basis; however, these investments cannot be redeemed during the life of the partnership. Distributions will be received as the underlying funds of the investment are liquidated over time. The fair values of the investments in this category have been estimated using the College's partner capital balance as provided by each investment's fund administrator. The capital balance is based on their percentage ownership of the overall fund.
- (B) These funds allocate capital across several strategies. Those strategies include companies in the following industries: metals and mining, chemicals, paper and forest products, transportation, homebuilding, building materials and appliances, energy, autos, retail and leisure, and agriculture. The fair value of these hedge funds has been estimated using the net asset value per share of the investments.
- (C) These hedge funds invest primarily in equities, with both long and short positions, along with corporate credit and senior and secured debt. Some funds within this group focus on U.S. equities, while other funds have a global investment allocation. The fair value of these hedge funds has been estimated using the net asset value per share of the investments.
- (D) This fund seeks to create a diversified portfolio of high yield debt, bank loans, and special opportunities aimed at achieving attractive risk adjusted returns through rigorous bottom-up fundamental credit research. The fair value of this hedge fund has been estimated using the net asset value per share of the investments.
- (E) This fund is a multi-strategy fund of hedge funds that only invests in funds that manage equity-like instruments comprising of four strategies: relative value, event-driven, equity market-neutral, and hedged equity. Distributions are made to members in cash pro rata in proportion to their capital accounts. The fund has only five small funds remaining with minimal market value.
- (F) The limited partnership was created with the purpose of investing in the Master Fund which holds private equity and venture capital partnerships which invest in equity, equity-related, and debt securities. The limited partners have made commitments to classes of investments in the partnership which include Developed Markets-Private Equity (the PE Class), Developed Markets-Venture Capital (the VC Class), and Emerging Markets-Private Equity and Venture Capital (the EM Class), (collectively, the "Classes" and, individually, a "Class"). These funds are valued on a regular basis; however, these investments cannot be redeemed during the life of the partnership. Distributions will be received as the underlying funds of the investment are liquidated over time. The fair values of the investments in this category have been estimated using the College's partner capital balance as provided by each investment's fund administrator.

NOTE 13 FAIR VALUE MEASUREMENTS (CONTINUED)

- (G) This limited partnership was formed for the purpose of investing substantially all of its assets in the Offshore Holdings Partnership. The Offshore Holdings Partnership was formed for the purpose of investing in pooled investment vehicles purchased from the existing owners of such pooled vehicles and not from the issuers of such investments or transactions structured to share many of the characteristics and economics of such purchases (Secondary Investments). The Secondary Investments are generally held by Private Equity Opportunities (PEO). PEO may receive distributions-in-kind from the Secondary Investments representing securities of the Secondary Investments' underlying portfolio companies ("Security Investments" and together with Secondary Investments, "Portfolio Investments"). PEO may make investments directly or indirectly related to the Secondary Investments, including underlying portfolio companies owned by Secondary Investments, swaps, options, and forward currency contracts. The Offshore Holdings Partnership may also make investments in swaps, options, forward currency contracts, and other alternative transactions. The Offshore Holdings Partnership is permitted to invest both domestically and internationally across all sectors of the private equity market directly and through PEO. These funds are valued on a regular basis; however, these investments cannot be redeemed during the life of the partnership. Distributions will be received as the underlying funds of the investment are liquidated over time. The fair values of the investments in this category have been estimated using the College's partner capital balance as provided by each investment's fund administrator. The capital balance is based on their percentage ownership of the overall fund.
- (H) The fund invests in following private equity industry sectors: Buyout, Venture Capital, and Special Situations. These funds are valued on a regular basis; however, these investments cannot be redeemed during the life of the partnership. Distributions will be received as the underlying funds of the investment are liquidated over time. The fair values of the investments in this category have been estimated using the College's partner capital balance as provided by each investment's fund administrator. The capital balance is based on their percentage ownership of the overall fund.
- (I) The fund invests in securities in secondary market transactions primarily in leveraged buyout, growth equity, mezzanine, and venture capital investment funds. In addition, the fund may make primary investments in Investment Partnerships, direct investments in companies alongside Investment Partnerships, and Secondary Investments in companies. These funds are valued on a regular basis; however, these investments cannot be redeemed during the life of the partnership. Distributions will be received as the underlying funds of the investment are liquidated over time. The fair values of the investments in this category have been estimated using the College's partner capital balance as provided by each investment's fund administrator. NOTE 14 COMMITMENTS AND CONTINGENCIES

The College is involved in various legal actions arising in the normal course of activities and is subject to periodic audits and inquiries by various regulatory agencies. Although the ultimate outcome of such matters is not determinable at this time, management believes that the resolution of these pending matters will not have a materially adverse effect on the College's financial statements.

The College has entered into various contracts for science building improvements and other infrastructure improvements. As of June 30, 2016, the remaining commitment on these contracts totaled approximately \$712,000.
