

# Pre-Veterinary Medicine

## *DVM Program Prerequisites*

A specific major is not required for admission into a DVM program. Students are advised to major in a discipline they are both most interested and able to excel in.

The following courses are required for admission to most DVM programs:

<i>Prerequisite (AAVMC 2015)</i>	<i>Prerequisites for the Iowa State University College of Veterinary Medicine (2015 Cycle)</i>	<i>Course Equivalent at Cornell College</i>
2 English courses	6 semester hours of English composition	ENG 111 (1 <sup>st</sup> Year Writing Course) & 1 additional writing course within the English department
2 Introductory Biology courses with labs	8 semester hours of Biology with labs	BIO 141 (Foundations: Cellular Biology) & BIO 142 (Foundations: Organismal Biology)
2 General Chemistry course with lab	7 semester hours of General Chemistry with lab	CHE 121 (Chemical Principles I) & CHE 122 (Chemical Principles II)
1 Genetics course	3 semester hours of Genetics (upper level Mendelian and molecular)	BIO 315 (Genetics)
2 Organic Chemistry courses with lab	7 semester hours of Organic Chemistry with lab	CHE 225 (Organic Chemistry I Lecture), CHE 326 (Organic Chemistry II Lecture), & CHE 327 (Organic Chemistry Laboratory)
1 Biochemistry course	3 semester hours of Biochemistry	CHE 334 (Biochemistry)
1 Anatomy/Physiology course	3 semester hours of mammalian Anatomy and/or Physiology	BIO 329 (Human Anatomy & Physiology I)
1 Speech/Public Speaking course	3 semester hours of oral communication (interpersonal, group, or public speaking)	See Faculty Advisor
2 Humanities/Social Science courses	8 semester hours of humanities and social sciences	Suggested: PSY 161 (Fundamentals of Psychological Science) PSY 282 (Abnormal Psychology) SOC 101 (Sociological Thinking)
1 Physics course	4 semester hours of Physics	PHY 141 (Introductory Physics I)

*The following courses at Cornell College are prerequisites for some of the aforementioned AAVMVC prerequisites and/or are recommended for students pursuing DVM programs:*  
 BIO 326 (Microbiology)

**Note:** Each DVM program has a specific list of prerequisites you must complete to be considered for admission. Most DVM programs require additional courses than those specified in the table above. Visit both the [VMCAS Application website](#) and DVM program websites regularly to explore program-specific prerequisites to ensure you've satisfy courses needed before applying. Be sure your Faculty Advisor is aware that you are Pre-Veterinary Medicine. It is strongly recommended that you meet with your Faculty Advisor and [Dimensions staff](#) regularly to ensure you are meeting the requirements for both your major and DVM programs in the proper sequence.

### AP Credit

DVM programs have different rules when it comes to accepting AP credit as fulfillment of a prerequisite. If you enter Cornell College with AP credit, closely check the requirements of the DVM programs of which you intend to apply.

Community College Credit

Most DVM programs prefer that applicants take all prerequisites at a 4-year institution. Students interested in earning credit at a community college should meet with their Faculty Advisor and the Associate Director of Dimensions *before* registration.

**Cornell College Pre-Veterinary Medicine Sample 4-Year Timeline\***

Year in School	Cornell College Course	Additional Information
First Year	FYS CHE 121 CHE 122 BIO 141 BIO 142 ENG 111 1 additional English writing course	Your top priorities are becoming acquainted with your new surroundings, living arrangements, and course requirements. Students are strongly encouraged to get involved in co-curricular activities they are interested in or passionate about. (Activities do not all need to be medical-related.) New students should meet with the Associate Director of Dimensions at least once during their first year on campus. <ul style="list-style-type: none"> <li>• Many students will begin exploring opportunities to shadow healthcare professionals, volunteer in the community, and take part in student organizations. Hours spent in co-curricular activities should be tracked for the VMCAS.</li> <li>• Students are encouraged to start thinking about summer as early as October**.</li> <li>• Students should review professional resources from this document and the Dimensions website to familiarize themselves with veterinary medicine and the veterinary medicine field.</li> <li>• Attend relevant Dimensions Pre-Health Workshops.</li> </ul>
Second Year	PSY 161 STA 201 CHE 225 CHE 326 CHE 327 BIO 205 BIO 315	<ul style="list-style-type: none"> <li>• Seek opportunities to work closely with faculty members on research and other projects outside of class. Narrow down co-curricular involvement to experiences that are most meaningful to you and that you are most passionate about (even if it's not healthcare related.) Move up to leadership positions or take on more responsibility in co-curricular activities.</li> <li>• Start looking at veterinary medical schools more closely to identify unique requirements of schools you are interested in. Read in detail about the veterinary medical school application cycles, the GRE, and the Cornell College Health Professions Committee.</li> <li>• Attend relevant Dimensions Pre-Health Workshops.</li> </ul>
Third Year	CHE 202 PHY 141 CHE 334 BIO 329 PSY 282 SOC 101	<ul style="list-style-type: none"> <li>• Continue to work up to leadership positions or take on more responsibilities in co-curricular activities. Continue to shadow in the medical field and volunteer in the community.</li> <li>• Be sure you've completed at least the minimum amount of shadowing hours required by veterinary medical schools you plan to apply to.</li> <li>• Register for the GRE and prepare by taking several full-length practice exams. (Dimensions can help you identify GRE prep resources.) Students should sit for the GRE in April, May or June of their third year on campus if they plan to apply to start a veterinary medical school immediately following graduation.</li> <li>• Prepare for Health Professions Committee if you intend to enter veterinary medical school immediately following graduation. Application deadlines should be verified with the Associate Director of Dimensions before the end of your junior year. (Example: Health Profession Committee applications are due summer 2016 if you hope to start veterinary medical school fall 2017.)</li> <li>• Attend relevant Dimensions Pre-Health Workshops.</li> </ul>
Fourth Year	BIO 326 Complete graduation major/minor requirements.	<ul style="list-style-type: none"> <li>• Complete secondary applications and on-campus interviews.</li> <li>• Attend relevant Dimensions Pre-Health Workshops.</li> </ul>

\*You should always begin with the course most aligned with your current ability. It is better to start a few courses back and earn an “A” than to jump right into the prerequisite course and earn a “B” or “C”. This sample timeline includes many required, recommended, and prerequisite courses for veterinary medical school. Always consult specific veterinary medicine program prerequisites and with your Faculty Advisor before making course selections.

\*\*Pre- Veterinary Medicine students hoping to enter veterinary medical school immediately after graduation are strongly encouraged to use their summers wisely in preparation for DVM programs. This includes conducting research, volunteering in the community, shadowing or interning in the field of veterinary medicine, and/or working in the healthcare field.
